## Celebrating Arts Month

Dear friends,

As we welcome this season of yellow aspens, cool temperatures, and (hopefully) smokeless skies, it's our hope that this hello from Green Mountain Falls finds you doing well and enjoying your favorite fall activities.

October in the Pikes Peak region is Arts Month, and as part of this community, we are thrilled to support the Cultural Office of the Pikes Peak Region in their celebration of the arts. With activities scheduled throughout the month ([see here](#)), it's easy to find new events to experience with friends and family. As for Green Box, the weather couldn't be better for walking and viewing many of our public art installations, which take on a different character due to the changing foliage and softening light.

We hope you find this newsletter to be informative, and for the most up-to-date information on Green Box, please visit our website and social media accounts.

Sincerely,  
The Green Box team

## Fall Artist Residency closes out 2021 Season

**Thank you to all our of this year's amazing artists in residence!**

Irby Pace (April)

Denys Drozdyuk and Antonina Skobina (May)

American Ballet Theatre (June)  
600 Highwaymen (September)  
Sommer Browning (September)  
Alexandra Lockhart and Emily McDaniel (October)

With our current artist residency being our last of 2021, Green Box would like to take a minute to congratulate all of our 2021 artists in residence. In just two years, this program has grown in stature and given artists the unique opportunity to indulge in the creative process. Helping spread the word, artist in residence Irby Pace had this to say about the program:

**"The time to make work without restriction or obstruction opened the creative floodgates. The landscape was so vastly different from what I am used to as opposed to the general flatness of most landscape views... it was incredibly inspiring."**

Our audiences have taken notice as well, with each residency including public and/or educational engagements. Most recently, dancers Alexandra Lockhart and Emily McDaniel held a masterclass and showing at The Movement Gallery in partnership with The Dance Alliance of the Pikes Peak Region. More than 30 local dance students participated in this masterclass!

## 2022 Artist In Residence Program

Free to apply / Applications due by Oct. 15  
See details [here](#)

Calling all artists! Applications are now open to participate in Green Box's 2022 Artist in Residence Program. There are opportunities for artists of all disciplines to apply, with several residency types to select from, including the following:

**Specific Project Residencies** with the following deliverables:

- **AUDIO TOUR** - The creation and recording of an audio-tour to highlight historic elements of Green Mountain Falls and the various outdoor art installations dotted throughout the Green Box campus.
- **LAKE STREET DISPLAY** - The creation and display of a 2-dimensional work of art to be unveiled in June of 2022 for a period of 3 months on our "billboard" in a prominent downtown location. The size of the display is 130" x 186".
- **MUSIC COMMISSION** - The creation and recording of a "Green Box Suite" for which Green Box will utilize as background music in video reels we produce. Additionally, there is potential to have the new music work premiere during the annual Green Box Arts Festival in the summer of 2022.

**OPEN PROJECT RESIDENCIES** - Green Box will offer two residencies that are open to any artist, duo or artistic collective working in any artistic discipline. Deliverables will be mutually agreed upon at the time of awarding the residencies.

**EXCHANGE RESIDENCY** - Green Box welcomes applications from individual artists seeking being paired with two other individual artists working in different artistic disciplines, to create something new together. Imagine a theatrical director collaborating with a poet and a composer on a new performance art piece; or a painter, non-fiction writer and dancer developing the next great work of art. The sky is the limit.
