2024 GREEN BOX ARTS FESTIVAL

Monday, July 1 – Sunday, July 14
GREEN MOUNTAIN FALLS, COLORADO

from the executive director

It's Green Box's sweet 16th! I remember being 16 years old, ready to take on the world, anticipating all the possibilities for the near and long-term future. I was budding with excitement and boundless energy, moving in a million different directions at once.

The feeling at Green Box is the same as what I experienced and all of us couldn't be more excited to share with you the schedule of our 16th annual Green Box Arts Festival. From performances to classes, conversations to hikes, parties to experiencing new art works – we think the festival has something (actually, lots of things) for everyone!

Flip through these pages, make note of all the events you want to attend and make plans to be a part of our community – for an afternoon, a full weekend, or the entire two weeks of the festival. While this schedule offers a comprehensive look at all our festival programming, for the most up-to-date information and tickets/registration (for both festival and other year-round programming), visit www.greenboxarts.org

On behalf of all of us at Green Box, we can't wait to see you in the mountains this summer as we experience the best in contemporary arts while also bathing in the tranquility and charm of beautiful Green Mountain Falls. See you soon!

Sincerely,

Scott RC Levy, EXECUTIVE DIRECTOR

visual arts

Green Box is renowned for our growing public art installation collection, most of which are on view year round. Check the campus map in this brochure for locations of all works on display. Three new temporary works join our collection this summer!

THE ARTIST

James Tapscott admiring one of his previous Arc ZERO installations

Join us at noon on July 1st at the Green Box Farm Stand for the unveiling of new works by Kristina Barker, James Tapscott & Thu Kim Vu.

Arc ZERO: Nimbus,
by James Tapscott
ON GAZEBO LAKE

Arc ZERO is the 10th iteration of the "Arc" series - culminating a body of work spanning

12 years, created by Australian-based artist James Tapscott. Each arc is a site-determined work beginning as a simple arc - an elegant and perfect form which is then left to a natural process to become transformed into the site. Arc ZERO uses water to produce mist which erupts from the rigid structure and is carried through the air by the wind as a diaphanous temporary form. The ring itself presents as an immersive portal, inviting the viewer to engage physically with the work and experience the site's phenomena in a direct and personal way.

A New Work, by Thu Kim Vu
LAKEVIEW TERRACE

A 2024 Green Box Artist In Residence, Vietnamese based installation artist Thu Kim Vu has created an immersive paper lantern installation on display inside Lakeview Terrace. Thu's work encompasses Vietnamese Zo paper, Japanese Washi, Chinese Ink Brush, and LED light. This ephemeral installation features a series of light sculptures in response to the natural landscape.

A New Work, by Kristina Barker
LAKE STREET DISPLAY

Kristina Barker is a Portland, Oregon based photographer whose artwork created during her 2024 Green Box artist residency will be on view as this summer's Lake Street Display. Kristina's work focuses on our natural world, the climate crisis, and exploring the bewildering experience of existing as a human. During her residency, Kristina embarked on visual explorations of themes around the human experience and calling our souls back home to our bodies through a unique, place-based visual exploration of the landscape.

One of Green Box's permanent art installations continues to delight thousands of visitors from throughout the world annually. Turrell's Skyspace offers an open eye to the skyline and stars. The adventure begins with an inspirational journey from the center of town up Red Butte, arriving at a one-of-a-kind kinetic light and color experience that shifts perception of nature and sky through contemporary light and space – an experiential work of art unlike anywhere else in the world.

All Skyspace Shows from May-September are currently available for purchase at greenboxarts.org

This summer, Green Box brings FIVE different dance companies to Green Mountain Falls, in a diverse performance featuring styles

and rhythms from throughout the world. Each performance will feature work from the following dancers/companies:

Ephrat "Bounce" Asherie, a 2016 Bessie Award winner for Innovative Achievement in Dance, creates work for the dynamic group of multifaceted dancers in her company Ephrat Asherie Dance (EAD). Rooted in various African American and Latine vernacular dances, including breaking, hip-hop, house and vogue, EAD is dedicated to exploring the inherently complex and dynamic qualities of these forms - Asherie's " movement phrases — compact bursts of choreography with rapid-fire changes in rhythm and gestural articulation — bubble up and dissipate, quickly paving the way for something new" (The NY Times).
**Note: Ephrat will only be appearing through July 7th*

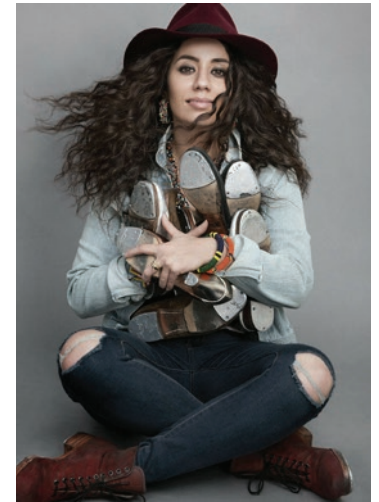

GALLIM Dance is a modern dance company founded in 2007 by groundbreaking choreographer Andrea Miller. GALLIM is a home for the exchange of movement wisdom through the three pillars of art-making, education, and community-building. GALLIM nurtures creative careers and stimulates the imagination of worldwide audiences through performance, education, and innovation in the movement arts, envisioning a world where creativity, movement and art is accessible, valued and serving its role of communicating the experience of our times.

Michela Marino Lerman, winner of the Hooper and FloBert Awards, is a world renowned tap dance artist, performer, choreographer, band leader, educator and all-around creative spirit. The NY Times has called her both a "prodigy" and has described her dancing as "flashes of brilliance." Michela will be performing with Russell Hall, one of the most in-demand bass players in New York City.

Jesús Muñoz Flamenco has, for over 10 years, worked to preserve and innovate the uniquely improvisational language of Flamenco art while enriching communities through multi-generational participation in the arts. The company, founded in 2010 in Albuquerque, has developed a physical, visual and sonic vocabulary that intersects Flamenco with Latin, Jazz and Hip-Hop, reflecting the experiences and backgrounds of company artists and audiences.

Barkha Patel is a kathak dancer, choreographer, educator, and the Artistic Director of Barkha Dance Company based in New York City. Barkha has performed solo and ensemble works at dance festivals in India and the U.S. Barkha was recently awarded the 2023 Juried Bessie Award for "elegantly and magnificently creating, educating, and sharing work that elevates classical Indian and Kathak dance. Patel is deeply rooted in her art form's spiritual and cultural history and is a contemporary voice that will contribute to the evolution of Kathak dance and its place in the dance world at large."

Additionally, participate in masterclasses with each of the dancers. More information can be found in the classes section of this brochure.
